

HOLIDAY PRODUCT INTERVIEW #5:

Ebooks

by Judy Mastrangelo

I have published several Ebooks on Kindle which I have illustrated. Most of the text is my own, and some of it is from classical literature in the public domain.

SEVERAL OF THESE BOOKS ALSO INCLUDE EXCLUSIVE DOWNLOADABLE ARTWORK THAT CAN ONLY BE ACCESSED FROM THE EBOOKS.

Here is a wonderful email that I recently received about my books:

"When I was five, my parents bought me one of your books. I was in love with the artwork and felt myself transported to the fantastical lands through your creative paintings. As I grew older I moved many times and consequently lost the book. I became very interested in art and am particularly fond of Pre-Raphaelite artists like Waterhouse and Rossetti. I have mourned the loss of the illustrated book for years but today all of that has changed.

I have just bought a used copy of your book with tears in my eyes. I am so thankful to be back in touch with your artwork. Thank you for greatly inspiring my acrylic paintings over the years and really lighting the first spark that ignited my passion and love of both fantasy and art."

PORTAL TO THE LAND OF FAE

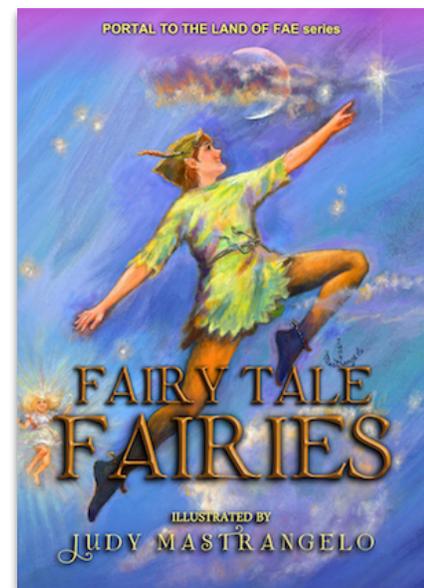

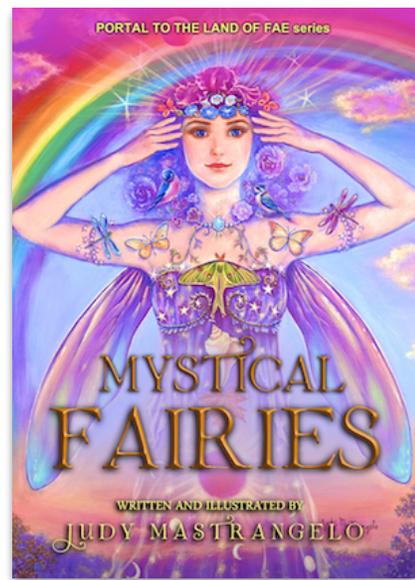

This is a four volume set which includes:

**MYSTICAL FAIRIES, FLOWER FAIRIES,
FAIRY TALE FAIRIES, and SECRETS OF THE FAIRIES**

These four books include a good body of my Fairy artwork, along with original text to go with each painting. Some excerpts from classical literature for my FAIRY TALE FAIRIES book include writings of Shakespeare, Hans Christian Anderson, etc. They contain descriptions of the fantastic Beings inhabiting this World, who have inspired and uplifted mankind throughout the ages. My vivid, and detailed paintings within these four volumes, depict the Beautiful Fairy Realm.

These four books can be purchased individually too.
Some book reviews are included.

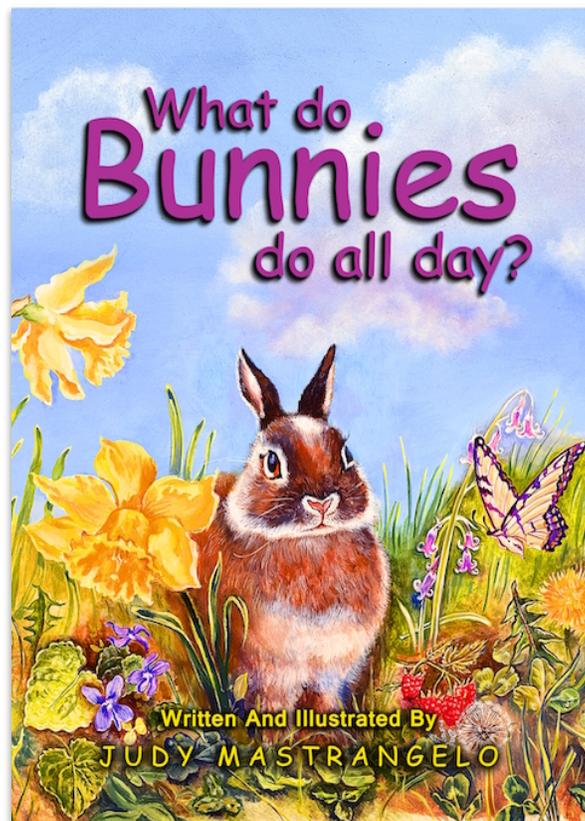

“Do you love fairies? Then you are in the right place. You will never have seen as many creatures of the land of Fae as in this series. The illustrations are, of course, outstanding. Use a tablet for enjoying these pictures where you can enlarge with two fingers. You will want to zoom into all the little details. Only in that way, you will fully appreciate the quality of work, painstakingly created during many hours no doubt. The art in this series of books is a work of love. So, here you have the chance to enjoy outstanding work by Judy Mastrangelo. Please enjoy, just like I did. And spend time with each picture!!”

“One of the most enjoyable sets of Kindle books I have read. Loved the beautiful illustrations....pure delight. These are my “cheer-up books.” I find that if I am feeling sad they put a smile on my face. I also always discover something new when I read them. I think they are just adorable and my grandchildren love them too. You will not be disappointed by this set.”

WHAT DO BUNNIES DO ALL DAY?

This is an original story I wrote about our little pet Netherland Dwarf Rabbit, and his adventures to discover all about the world.

"What Do Bunnies Do All Day" is one of the sweetest kids books I've ever read to my children. They absolutely adored the artist's illustrations and now want to get some of them for their bedroom walls. It is so nice to have something nice to share with your children. I think all children would enjoy the imagery and words presented in this one. A lot of fun and a very, very good present.

Wow this book is an absolute delight! What a great story and the illustrations are perfect. I love the way the story involves little bunny conversing with all of nature, the the sky, the land and the water. It's bound to spark the imagination of the young (and the young at heart) and encourage their connection with nature, and nature spirits. This book is great for balancing the heart chakra, wonderful! :)

This will soon be available as an Audiobook also, along with the illustrations. I narrate the story myself.

This book contains the entire immortal poem, which is also known as “TWINKLE TWINKLE LITTLE STAR”, written by Jane Taylor. I have interpreted this in a unique way, with delightful Fantasy Animals and other imaginative characters,

This will soon be available as an Audiobook also, along with the illustrations. The poem is sung by “Titania, The Fairy Queen”, with piano accompaniment and arrangement by Mark Powell www.arqmusic.com
